Portable Appliance Inspection & Test. Advance Booking Request

We are at present offering a **5% discount** on your next electrical survey if booked between 3 and 14 months in advance.
This will help us to plan our work schedule more efficiently, help you to plan your annual Health & Safety inspections at a time to suit you and helps remove the possibility of either party forgetting.

Establishment

……

Date(s) requested

……

Signed dated

……

Please tick the required service (this may effect the time needed to test your establishment, but can be changed at a later date if necessary).

☐ Eco ☐ Extra ☐ Elite

Establishments with an advanced booking will take priority. We will try our best to keep exactly to the times and dates agreed, but circumstances on other sites may mean we have to change our bookings slightly to compensate.
Similarly you may have circumstances which require a modification to agreed timings.
Once an Advance Booking has been made a dated Discount Voucher will be sent to you to keep as confirmation.

Please hand this request to the engineer while on site or post to office:

Scientia Services Limited
St. Winifreds Honor End Lane Prestwood
Great Missenden Buckinghamshire HP16 9HQ

- ✓ Highly professional for all sites
- ✓ Based in a 4 year cycle of varying complexity of testing with visits every 12-14 months
- ✓ Engineers able to tailor the testing to suit the appliance
- ✓ Our testing is based on a mobile work station, no need to gather your appliances together
- ✓ Detailed inspections to ascertain safety
- ✓ State of the art equipment, applying the appropriate tests for the correct duration
- ✓ Purpose made labels giving the information you require
- ✓ Certificate as visual proof of your conformity to the regulations
- ✓ Hard copy report in file + digital format on cd
- ✓ Your site tests stored on a database & values compared, anomalies identified

Three levels of service giving you flexibility

- ✓ Small enough company to have continuity of engineers to site year after year
- ✓ Continually monitoring the regulations to provide you with the most meaningful service
- ✓ More than meets all the regulations

When comparing our charges to others - please note

We consider an appliance to be - the item **with** its lead when the mains cable is permanently fixed.

For appliances with detachable mains leads (cord sets) the item is tested & the cord set tested separately as an appliance using different test parameters.

If remedial work is required some other contractors FAIL the appliance, the remedial work is undertaken & a **second charge** is incurred on retest.
We undertake remedial work (new plug, fuse, plug retermination, minor repairs) **prior** to testing so that you only incur one charge.

We do not stick labels on everything in sight that appears to be electrical - low volt equipment does not need testing!
